Music Production Notes

Fantasy is used here as a deterministic native-text fixture.

The page contains headings and paragraphs encoded as PDF text.

It verifies page metadata without enabling optical recognition.

The content is synthetic test data and not a knowledge source.

Arrangement and Collaboration

This second page provides enough characters for stable metrics.

Composer, producer, and lyricist roles remain separate concepts.

Evidence coordinates must retain the one-based source page.

No cleaning, chunking, or embedding occurs in this fixture.
